

Does your child self-injure?

The PediMIND Research Program is seeking families with a child 11-16 years old who engages in self-cutting to participate in a research study.

Participants will complete an initial assessment, questionnaires, play special computer games,

& complete an MRI scan.

Plus 6 *short* follow-up visits.

IRB Approved: 03/13/2019

IRB Accepted: 03/13/2019

IRB Expiration: 03/12/2020

Participants will be compensated for their time.

This is not a treatment study.

Eligibility:

- Engages in self-cutting
- Has never attempted suicide
- No implanted metal (braces, permanent retainer, etc.)

Interested?
